

To whom it may concern,

I share this motivation letter with you to put my candidacy for the vacancy of President of the Board of Auditors.

I would like to introduce myself to you before sharing my nearly 4-year ESN adventure. I am Asen, I graduated from Hacettepe University, Department of Economics. I had the opportunity to meet ESN Hacettepe when I was working at our school's European Union Office in 2017. I was an active member at that time, but when my way of managing official affairs was appreciated by the board of directors of the time, I was included to the board of ESN Hacettepe in the half term . In the following year, when I attended my first National Platform'17 (CBU) meeting, I took on the role of the section Local Representative. During this process, I had the opportunity to ace on Statutes and Standing Orders (SOS) of both ESN Turkey and ESN Hacettepe. After I took on LR duty, I started rewriting process of ESN Hacettepe's SOS. After my local representative duty, I took over the section's Vice President(VP) position for the new term. At that time, it was a difficult period for our section and we tried to fix the situation in the best way with teamwork. During the same period, one again, we had to rewrite the SOS because of the circumstances of that particular period; of course, with the help of ESN Turkey's SOS by reading it cover to cover. In this way, the section's improvement of the internal affairs and various actions taken in our official relations with the office were ensured initially by me and my team. I did not take it alone, it was a complete success we had with the friends on the board. As of September 2019, I took over the president of the Board of Auditors in my section. I believe that I managed the inspection mechanism well in this process. As of March 2021, I ended my president duty as the section Board of Auditors.

As for my motivation to take on this task, I think I am a good team player. Since the past few months have been turbulent for ESN Turkey and based on my observations and I believe that I am experienced in knowledge, I wanted to play a role at the national level. The thing that concerns me while working is not the names, but the improvements inside ESN Turkey. Therefore, I would be happy to show you that I will try to carry out my duty fairly and objectively during the process after taking the assignment. With the committee that I am responsible for, I aim to address the deficiencies and open-ended items, direct the charter work again, and work in a way to ensure that this tumultuary period will end and we will have bright new days.

To healthy and better days,

Best regards.

Asen AKÇAY
