

15.08.2021

Dear Erasmus Student Network Turkey,

With this covering letter I, Kerem Pişkin, hereby declaring my candidacy for National President of Board of Auditors position.

As you can see in my CV too, my ESN journey started nearly 4 years ago with ESN Gazi. Throughout this 4 year I've attendant many National Platform, training events and activities regarding ESN. Now I would like to demonstrate my motivation and plans for the position that I apply for.

First, I am Mechanical Engineering student at Gazi University. I applied and accepted to ESN Gazi in 2017. In my first year I oversaw the buddy system of my section. After attending events and meetings such as ESN 101, Chill'ness and NP I gained a new perspective about our Network and this new perspective provide me motivation to take more responsibility in our Network. In the end of my 4-year period I decided to apply for this position because I wanted to share and act upon my vision for this Organisation. I do not want to make a boring motivation letter so I would not write each position that I take or make a list of every meeting, events, or activities that I participated in this 4 year instead I would like to write my vision and plans.

Before everything if I am elected for this duty, I will restructure the SOS Committee. The Committee was dysfunctional for a while now and certainly need for a new perspective and agenda such as evaluating and updating our old documents, helping local sections, committees, and teams to create their own statutes, and standing orders, serving as a help desk if there is a conflict between sides. After this with the committee I will update all the documents that we have (i.e., NA organization guide, NA CT guide...).

With the Board of Auditors (If the positions elected of course) and with the committee we will reevaluate the SOS, try to solve problems that occurred during last year and create a more sustainable, clear, and simple document. And as the most important part of this duty, we will perform scheduled auditions to all the bodies of ESN Turkey within the scope of our Statutes.

15.08.2021

Lastly, I want to say if you see me fit for this position, I can promise to all of you that I will be objective, reasonable, and reachable to all parts of ESN Turkey. I am grateful for your consideration.

Sincerely,

Kerem Pişkin
